APPLICATION TO VARY OR MODIFY THE PROVISIONS OF THE ZONING ORDINANCE

DECLARATION OF APPLICABLE SUBSECTION

All applicants or appellants coming before the Planning Board or Zoning Board of Adjustment seeking variance approval shall complete and submit this form as part of the regular application forms. This form shall list the section of the Statute under which the application is made as well as the basic reasons that will be presented in order to obtain the relief sought.

The Planning Board and Zoning Board of Adjustment of the Township of Livingston has been established pursuant to the authority of the Municipal Land Use Law of the State of New Jersey (N.J.S.A. 40:55D-1 et seq.). Within the guidelines of that Statute, both Boards shall have the power, under certain circumstances, to grant variances pursuant to Section 40:55D-70.

(Check which Section applies to the application.)

- a:** Hear and decide appeals where it is alleged by the appellant that there is an error in any order, requirement, decision or refusal made by an administrative officer based on or made in the enforcement of the zoning ordinance;
- b:** Hear and decide requests for interpretation of the zoning map or ordinance or for decisions upon other special questions upon which such board is authorized to pass by any zoning official map ordinance in accordance with this act; and,
- c(1):** Where (a) by reason of exceptional narrowness, shallowness or shape of a specific piece of property, (b) or by reason of exceptional topographic conditions or physical features uniquely affecting a specific piece of property, or (c) by reason of an extraordinary and exceptional situation uniquely affecting a specific piece of property or the structures lawfully existing thereon, the strict application of any regulation pursuant to article 8 of this act would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardship upon the developer of such property, grant, upon an application or an appeal relating to the property, a variance from such strict application of such regulation so as to relieve such difficulties or hardship;
- c(2):** Where in an application or appeal relating to a specific piece of property the purposes of this act would be advanced by a deviation from the zoning ordinance requirements and benefits of the deviation would substantially outweigh any detriment, grant a variance to allow departure from regulations pursuant to article 8 of this act; provided, however, that no variance from those departures enumerated in subsection d of this section shall be granted under this subsection; and provide further that the proposed development does not require approval by the planning board of a subdivision, site plan or conditional use in conjunction with which the planning board has power to review a request for a variance pursuant to subsection 47 a. (C. 40: 55D-60a.) of this act.
- d:** In particular cases and for special reasons, grant a variance to allow departure from regulations pursuant to article 8 of this act to permit (1) a use or principal structure in a district restricted against such use or principal structure, (2) an expansion of a non-conforming use, (3) deviation from a specification or standard pertaining solely to a conditional use, (4) and increase in the permitted floor area ratio, (5) an increase in the permitted density except as applied to the required lot area for a lot or lots for detached one or two dwelling unit buildings which lot or lots are either an isolated undersized lot or lots resulting from a minor subdivision. A variance under this subsection shall be granted only by affirmative vote of at least five members, in the case of a municipal board, or 2/3 of the full authorized membership, in the case of a regional board pursuant to article 10 of this act.

No variance or other relief may be granted under the terms of this section unless such variance or other relief can be granted without substantial detriment to the public good and will not substantially impair the intent and purpose of the zone plan and zoning ordinance. In respect of any airport hazard area delineated under the Air Safety and Hazardous Zoning Act of 1983, "P.L. 1983,c. 260 (c. C. 6:1-80 et seq.) no variance or other variance or other relief may be granted under the terms of this section permitting the creation or establishment of a nonconforming use which would be prohibited under the standards promulgated pursuant to that act except upon issuance of a permit by the Commissioner of Transportation.

Further, both Boards shall have the power to grant, as authorized by Section 40:55D-76, under certain circumstances, relief from subsections 25 and 27 (C. 40:55D 34 and C. 40:55D-36) as to:

- a(1):** Direction pursuant to section 25 of this act for issuance of a permit for a building or structure in the bed of a mapped street or public drainage way, flood control basin or public area reserved and,
- a(2):** Direction pursuant to section 27 of this act for issuance of a permit for a building or structure not related to a street.
